> Week 4: Objects and Classes [DNU] > Kuis Mingguan 4: Objects and Classes

Started on	Friday, 23 February 2024, 3:04 PM
State	Finished
Completed on	Friday, 23 February 2024, 3:20 PM
Time taken	15 mins 44 secs
Grade	100.00 out of 100.00

Question 1

Correct

Mark 50.00 out of 50.00

Perhatikan UML Diagram di bawah ini:

```
Book
                           - title: String
                          - author: String
                         - digital: boolean
                          - noOfPages: int
                        - totalNoOfBooks: int
                               Book()
Book(title: String, author: String, digital: boolean, noOfPages: int)
                 Book(title: String, author: String)
                        + getTitle(): String
                        + getAuthor(): String
                          + getPages(): int
                    + changeDigitalStatus(): void
                      +getTotalNoOfBooks(): int
                        + toString(): String
                    + equals(Book that): boolean
```

Jumlah data field yang bersifat reference variable ada 2 \checkmark , salah satunya adalah (case-sensitive
jika tidak ada, tuliskan none) title 🗸 .
Jumlah constructor ada 3 \checkmark , dan constructor default $$ ada $$ \checkmark \checkmark constructor default.
Jumlah data field yang bersifat private ada $\boxed{5}$, dan jumlah method yang bersifat private ada $\boxed{0}$.
Jumlah method static ada 1 , yaitu(case-sensitive, jika tidak ada, tuliskan none)
getTotalNoOfBooks 🗸

Question 2

Correct

Mark 50.00 out of 50.00

Perhatikan UML Diagram di bawah ini:
